

MAP 2 - YUGAMBEH

Game design by Phil Walker-Harding
Illustrations by Meredith Walker-Harding
For 1 or more players, 20 minutes to play

Welcome to Yugambeh country (south-east Queensland)! This map provides new challenges and an extra level of difficulty. Here, you'll find smaller areas of trees which require you to be extra careful with your planning, especially when fitting in those larger shapes. There's also new merit badges which will direct your overall strategy, and negative points for not completing hospitals. So stay alert and do your best!

GAMEPLAY

Gameplay is the same as Map 1, with the following exceptions:

- You do not start with any volunteers circled.
- At the end of each round, completed hospitals score the positive value on their roof. But if a hospital has been started and not completed, you score its negative value. For example, if after round 2 you have filled in no circles on the 2-size hospital, 3 circles on the 3-size hospital, and 3 circles on the 4-size hospital, you score 0 points (0 +3 -3) for hospitals.
- Remember, taking a bonus action is always optional so you may choose not to use a hospital bonus.

SOLO VERSION

There are more areas to score on this map, so you'll need more points to get a good rating!

- 0-15** Junior club member. Keep practicing!
- 16-19** Club secretary. You're getting the hang of it!
- 20-23** Club treasurer. You're making a real difference!
- 24-27** Vice-president. An excellent achievement!
- 28+** President. A champion of Koala Rescue Club!
